A Lively Discussion.

Dr. Siltt's speech was listened to with the closest attention, and he was frequently interrupted and encouraged by applause.

Rev. J. W. Jones then offered a substitute resolution condemning the use of individual cups and argued that historical data favors the single cup. He furthermore insisted that members who had tried that favors the single cup. He furthermore insisted that members who had tried the was reseated by Dr. Harcourt, and Dr. Harco

"Brethren," said Bishop Andrews, in his most pacific yet firm manner, "you can't settle a dispute like that in here."
Whereupon everybody laughed at the implied retiring of Harcourt and Jones for the purpose of physical settlement, that gave Dr. Townsend an opportunity to move that the whole matter be laid upon the table, which motion was agreed to by a vote of 91 to 73.

on earth and for the spiritual, mental and moral growth of its members. He alluded to the temptations that beset the youth of this country on every hand and said: "You all say, Yes; that's so; they do exist,' and yet you all have votes. God forbid that any one here should smile at Dr. Parkhurst or the work he has done. He may make lots of blunders, and will probably make a great many more, but as long as he stands for virtue and works and fights and prays for it, and stands all alone, if necessary, and cannot be tired out, I say, God bless him; and it is because I believe the Epworth League stands for the same principles—I don't mean for it to go into politics, wish and the property of the same principles—I don't mean for it to go into politics, which was an expectate and they made it ring with songs. Wheat Advances Two Cents.

CHICAGO, March 12.—Wheat opened with a wiid jump today at 2 cents over last night's closing prices. Everybody on the floor apparently wanted grain, and for a time offerings were very scarce, but Pardridge's people poured stuff into the pit until the edge was taken off the bull appetite and a moderate reaction followed. The strength came from the government report issued last night. May opened at 56% 55%, sold down to 56% and reacted to 55%. Corn started with a reflection of the big advance in wheat, but lost much of its advance later. Receipts overran and offerings were liberal.

No New Smallpox Cases, No New Smallpox Cases.

There were no new cases of smallpox reported to the health office today, nor was there even a suspected case heard of. The case reported yesterday as suspicious, it is thought, is not a case of smallpox. While the officials hope that the last case of the disease has been reported, they fear that the Butler case may yet prove productive of other cases. He was an officer of the Colored Catholic Benevolent Society, and had many friends. The consequence was that when heavas islek a large number of persons called to see him.
